

Michael Mulette

Chief Operating Officer

[Link to Profile](#)

Michael Mulette joined MAPS Public Benefit Corporation (MAPS PBC) as chief operating officer in March of 2022. He is an experienced drug development and commercialization professional with decades of experience growing businesses. Mike most recently served as vice president North America commercial operations for Moderna where he oversaw commercialization of the company's COVID-19 vaccine during the height of the pandemic. Before Moderna he spent almost twenty years with Sanofi working in commercial, business development, operations, strategy, planning, marketing and sales in roles of increasing levels of responsibility. Mike earned his Bachelor of Business Administration from Villanova University and an M.B.A. from Lehigh University
